Wholesale Custom Made Aluminum Perforated Baking Trays Baking Sheet Pan with Holes

Product Description

1.The pastry foods will rise and bake evenly due to the baking sheet trays of quality manufactured 1.0mm aluminum materials.

2. The aluminum baking sheet pan has superior heat conductivity with perfectly distribute the same amount of heat across the whole tray, ensuring perfectly baked items every bake.

3. The aluminium tray will not warp. This is due to the reinforced encapsulated steel wire in rims.

4. Never fear about rusting, as long as the baking trays are cleaned properly. They won't rust and discolour. Besides being used for baking, the aluminium trays are also good choices to store and display foods.

5. Multiple sizes for choices, any custom size is supported in Tsingbuy **perforated tray manufacturer**. Do not worry about your required sizes. Come to us is a best choice.
