Comment utiliser les paniers de vérification:

1. Nettoyer et sécher le panier, enduit finement et uniformément de farine à l'intérieur du

panier

2. Mettez un morceau de pâte dans le panier en rotin jusqu'à ce qu'il soit complètement fermenté pour s'adapter au panier.
3. Le modèle du panier de rotin en rotin est clairement imprimé sur la pâte fermentée, un beau moule à pain s'est formé.
4. Retournez le panier, retirez-le de la pâte et transférez-le sur une plaque à pâtisserie.
5. Faites cuire le pain, nettoyez le panier ou mettez une autre pâte dedans, répétez la procédure ci-dessus.

Comment entretenir et nettoyer le panier de banneton?

Tout d'abord, pour éliminer les grumeaux de farine de la surface du banneton, frottez-le légèrement sur l'évier et tapotez-le plusieurs fois après chaque utilisation.

Deuxièmement, lorsque le film de farine sur le banneton devient épais et croustillant, faites-le tremper pendant 20 minutes dans de l'eau froide et nettoyez-le avec une brosse à récurer.

Troisièmement, si possible, suspendez le banneton au soleil pour le laisser sécher. Selon le niveau d'utilisation, les boulangeries professionnelles lavent les bannières tous les six mois ou tous les deux ans. Si vous ne faites que cuire un pain à la maison, le banneton n'aura peut-être jamais besoin de lavage.
