

China Wholesale Industrial Bread Baking Pan

Main features of [loaf pan wholesales China](#)

- Commercial grade
- China loaf pan is built in folded construction with reinforcing wire
- [Toast tin manufacturer](#) designs the drop cover with a reinforced hemmed edge for easy slide on/off and also makes it more durable
- Unique corrugated surface design facilitates air circulation for evenly baked goods and quick release to bake the perfect quick bread, flawless pound cake, super moist cornbread, or classic meatloaf.
- Season pan prior to first use; wipe to clean; if needed, wash with cold water, mild soap and dry immediately

Caring of Teflon coated

Basic Maintenance tips (first time use only) from strap loaf pan manufacturer China

1. Clean the trays(make sure not use sharp tool, or it will damage the teflon coating)
2. Brush oil with the tray (in teflon coating area)
3. Set the oven on 180degrees
4. Put the trays inside oven , and keep in the oven at 180degrees for 10minutes

Other maintenance suggestions from China loaf pan supplier

1. Baking temperature need lower 250 degree and then can expand the life span.
2. To avoid unevenly heats .
3. Don't empty to burn.
4. Don't use high temperature steam cooking for a long time as it is easy to make the teflon took off.

Instructions of teflon daily using

1. Cleaning with soft cloth and drying the tray before your using.
2. Using soft cloth or plastic scraper to clean the residues of the inner trays after finish baking.

3. Better to add some Neutral Detergent into temperature water to clean the residues entirely with soft cloth after using several times.
4. Brush some oil to improve the efficiency of coating while baking high sugar products (recommend butter, baking tray's oil or lard oil. Don't use salad oil)
