

738*503mm Large Size Commercial Aluminized Steel Non Stick Hamburger Bun Burger Bread Baking Pan Tray Bakery Oven Tray

Main features of large aluminized steel 24-mold hamburger bun burger bread baking pan tray

1. The hamburger tray is 738*503 large size, and has 24 molds, making it ideal for producing a large number of hamburgers at once, suitable for commercial use and industrial use in bakery and food factory.
2. The tray is coated with a high-quality teflon non stick coating which is durable for long service life.
3. It is made of aluminized steel, which makes it sturdy and durable enough for commercial use in bakeries, food factories, restaurants, and other foodservice businesses.
4. The tray is machine-stamped from a single sheet of material, ensuring that there are no dead corners and that the burger molds have a smooth, arc-shaped bottom.
5. With its superior quality materials and construction, this hamburger tray is an excellent investment for any business that needs to produce high volumes of hamburgers quickly and efficiently.
7. Tsingbuy [burger bread pan manufacturer](#) is professional in baking pans industry and specializes in custom manufacturing pans used on machinery food-production lines.
