

# Anodized Aluminum Cake Pans

## Main features of anodized aluminum cake pans

- Aluminum alloy material, heating monarch, light material, high strength, not easy to deformation;
- Heat transfer is good, baking effect is better and faster than other materials;
- Alkali resistance, acid resistance, high sugar resistance;
- Long service life, can be used repeatedly;
- Integrated molding design, no burr, easy to clean, no dirt;
- Multi-functional pan, [Chiffon cake baking mould factory](#), can make Chiffon cake, cheese cake, mousse cake, etc.
