

Rectangle Mesh Screen Baking Tray

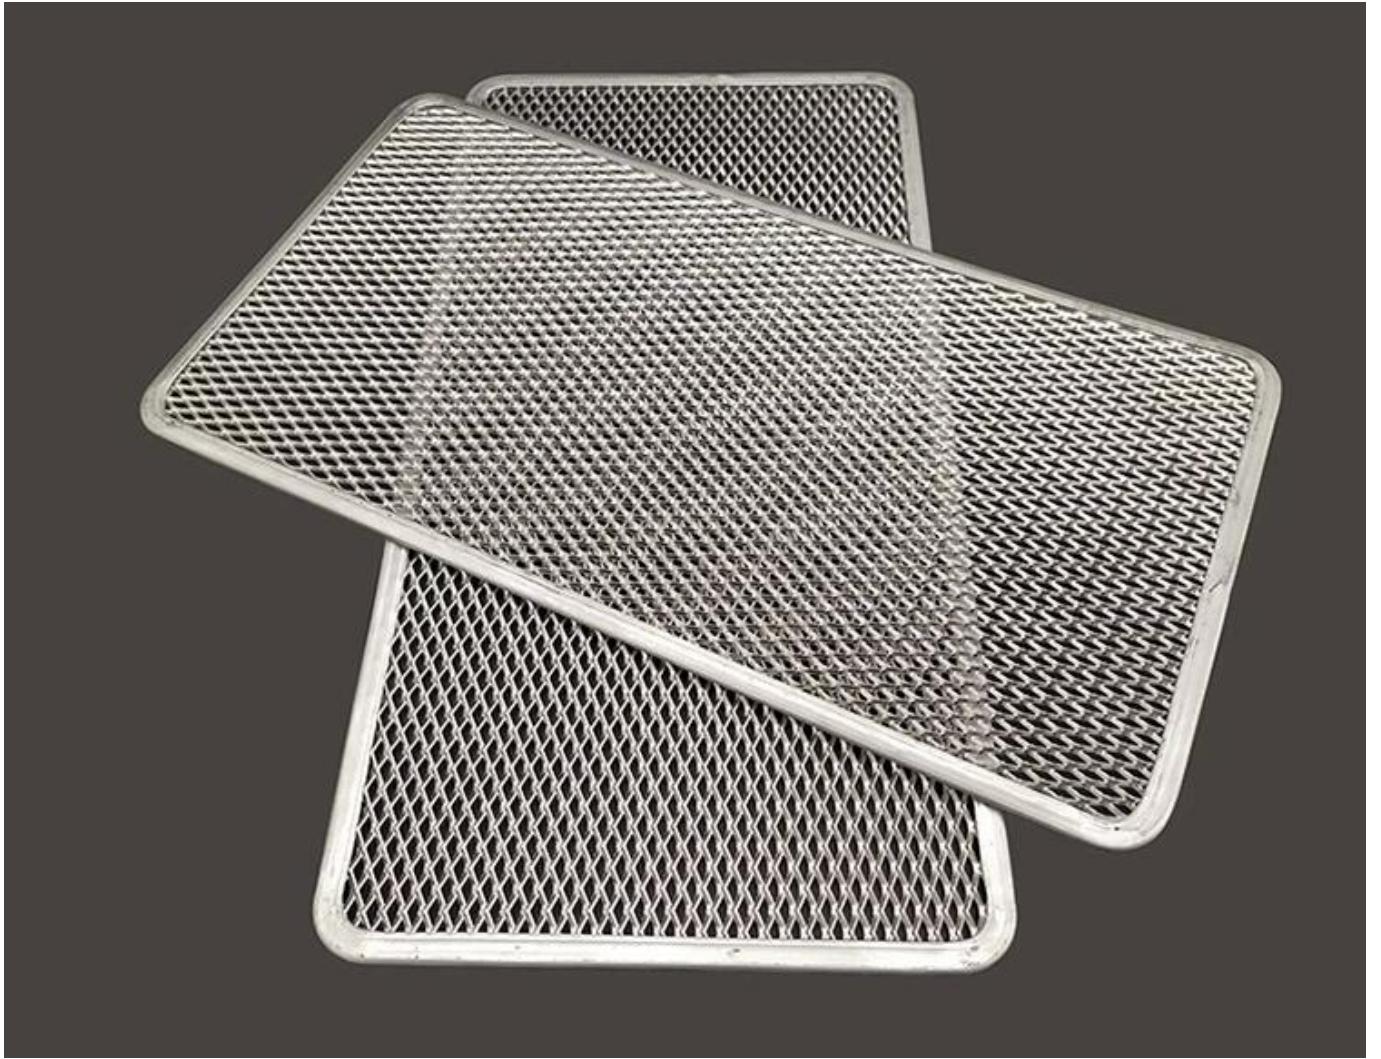

Main features of rectangle mesh screen baking tray

1. The mesh plate is made of thickened aluminum material, the surface is anodized, and has good corrosion resistance. It is easy to put and take food on the screen into the oven;
2. Dense net distribution, the surface bearing capacity is even, not easy to deformation, so that the back of the baked food grain orderly and beautiful.
3. Various sizes are available, and the shape can be customized. The surface is carefully polished, smooth and bright. It is not easy to stick food, and easy to clean.
4. Due to different material, wire diameter, mesh size, product size and other specification choices in [pizza screen manufacturer](#), please contact us for order.
