

Stainless Steel Round Perforated Mousse Rings Tart Rings

Main features of stainless steel round perforated mousse cake rings tart rings

1. Made of high Quality 304 stainless steel material, can direct contact with food, safe use, corrosion resistance, non-rusting, high strength, wear resistance, no deformation
2. The surface is perforated. The air permeability holes are evenly distributed and compact. They have good air permeability, no leakage, and are not easy to retract. The baked tart cake / pie cake will be more crisp and has a unique ripple pattern.
3. Smooth hand touch feeling. After polishing and electrolysis treatment, the mould is smooth and beautiful, not prickly, easy to clean, not hiding dirt and residues, and the finished baking tart/pie is perfect.
4. Multiple choices in size and more shapes can be ordered from Tsingbuy [perforated mousse ring manufacturer](#).
 - I Diameter: 50/55/60/65/70/75/80/85/90/100/105/125/127/150/155/178/185/200/205/245/285mm
 - I Height: 20mm
