Corrugated metal roofing panels

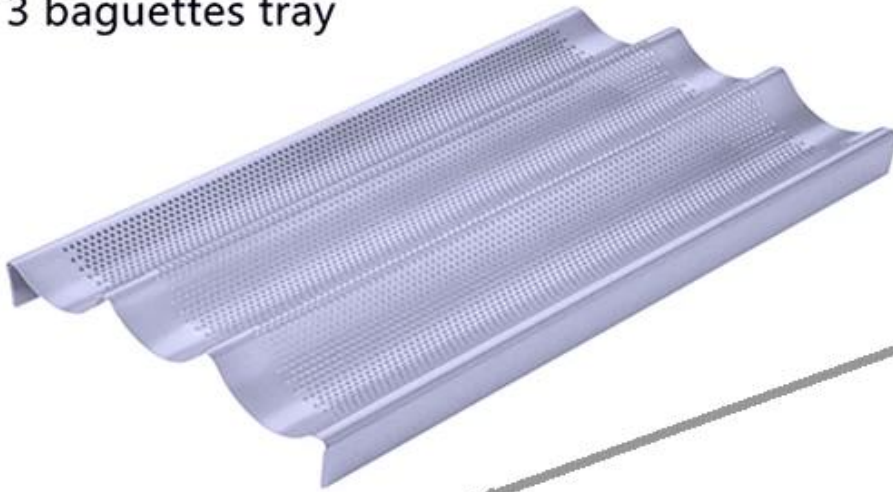

Corrugated metal roofing panels are made from galvanized steel or aluminum. They are available in a variety of colors and profiles. The most common profile is the 12-gauge, 16-gauge, and 18-gauge. The most common color is silver, but other colors include red, blue, and green. Corrugated metal roofing panels are used for a variety of applications, including roofs, walls, and gutters. They are durable, long-lasting, and easy to install. For more information, please visit www.Tsingbuy.com.

With a few specifications we can manufacture your customized product

- A. Overall Length
- B. Overall Width
- C. Height
- D. Row Width
- F. Width of edge
