

Product and Custom Tray Service

1. Standard size , customized size is acceptable .
2. High quality aluminum , aluminized steel and stainless steel material for your selection, thick enough .
3. Machine stamped and handmade workmanship for your selection
4. Natural/ no coating ,teflon coating ,silicone coating for your selection .
5. Suit for trolley ,gas oven ,rotary oven in bakeries ,food factories ...

Instructions of coating daily using

- 1. Cleaning with soft cloth and drying the tray before your using.
- 2. Using soft cloth or plastic scraper to clean the residues of the inner trays after finish baking.
- 3. Better to add some Neutral Detergent into temperature water to clean the residues entirely with soft cloth after using several times.
- 4. Brush some oil to improve the efficiency of coating while baking high sugar products (recommend butter, baking tray's oil or lard oil. Don't use salad oil)
