Product Description from Cooling Rack Manufacturer

It is made from heavy duty stainless steel by Tsingbuy [cooling rack](#) factory.

The cooling rack retains its shape even after heavy food items are placed on it.

The cooling rack has standard sizes, height and grid space for most-usually use.

The standard sizes are specially and professionally decided by an experienced team knowing baking well.

Cooling supplier ensures the rack good air flow, so as to optimally bake foods or properly cool baked hot foods.

You can safely roast, bake, broil, decorate, cool or dry foods on this cooling rack. You can also put it in the dish-washer and no-fuss cleaning troubles.

THICKER, STRONGER cooling rack won't rust and it's built to last and durable. It is made from 100% 201 or 304 grade stainless steel - premium, thick gauge wire will not rust or bend

Tsingbuy [cooling net supplier](#) manufactures the best stainless steel cooling rack. Thanks to high-grade stainless steel construction that will not rust. And generous sizes that fit into all sheet pans. It is definitely a chef quality elevated rack and perfect for countertop cooling after using it in a hot oven.

Multi-Application

Cooling rack

Sets with sheet pan

The specially designed grid space means good air flow for both cooking, baking and cooling. No more mushy bread from condensation or burned cookies due to over-baking on a pan. The heavy and strong net provides good support and balance, without wobbling. The cooling rack with tight grid screen with small hole mesh is helpful in keeping food from falling through & prevents sagging

Tsingbuy cooling net supplier gives standard sizes for selections. Unlike some other products that are too long and hang over the pan edge leaving you with lopsided results. Tsingbuy cooling rack was purposefully designed to insert inside half sheets perfectly.

As one of the most experienced and professional [cooling rack](#) manufacturer, we also provide OEM & ODM service for our customers by customization.
