

Commercial-Grade Aluminized Steel Croissant Bread Baking Tray — 30 Oval Molds, 600*800mm Tray

Main features of aluminized steel 30-mold nonstick croissant bread baking tray

Bake perfect croissants with this premium aluminized steel croissant pan, designed for professional bakeries and high-volume production. Featuring 30 oval molds on a large 600×800mm tray, it maximizes baking capacity while maintaining uniform heat distribution for consistently golden, flaky pastries.

The non-stick coated surface ensures easy release of croissants and quick, effortless cleaning, making it ideal for busy commercial kitchens. Built to commercial industrial grade standards, this pan withstands heavy daily use while delivering reliable performance every time.

Tsingbuy, a trusted professional [commercial baking pan manufacturer in China](#) since 2006, offers full ODM & OEM services, allowing you to customize tray size, mold arrangement, or surface coating to fit your bakery's unique requirements. Perfect for bakeries, restaurants, and food production lines seeking durable, high-quality croissant baking solutions.

Key Features:

- Premium aluminized steel construction for durability and even baking
- 30 oval molds on a large 600×800mm tray for high-volume production
- Non-stick surface for easy release and cleaning
- Commercial industrial grade for professional bakery use
- Customizable with professional ODM & OEM service
