Note when use anodized round cake pan

When used for the first time, it is necessary to clean the interior and dry it with a soft cloth before oiling it.

After each use, please wash immediately with warm water and neutral detergent. After drying, store in a dry place.

Every time after it is used for a period of time, it should be washed with warm water and a small amount of neutral detergent, and the residues in the utensils should be thoroughly cleaned away with soft cloth.

Periodically check the wear condition of the product surface, find out the cause of abnormal wear in time and adjust operations accordingly, so as to avoid more serious damage to the anodized surface and prolong the service life of the product.
