

Custom Made Aluminized Steel Non Stick 20-mold Hamburger Tray, Commercial Burger Bun Bread Baking Tray

Main features of custom commercial 20-mold hamburger tray

1. Material: Made from premium aluminized steel, ensuring excellent heat conduction, durability, and resistance to corrosion, perfect for heavy-duty commercial use.
 2. Non-Stick Coating: Enhanced with a non-stick surface for easy release of baked goods, minimizing sticking and reducing cleaning time.
 3. Interlocked Construction: Designed with a robust interlocked structure, providing stability and longevity for consistent performance over repeated use.
 4. Capacity: Features 20 round molds per pan, ideal for producing uniform, high-quality hamburger buns in large quantities.
 5. Pins Design for Stability: Incorporates a pins design for secure stacking, improving efficiency in storage and handling during bakery operations.
 6. Commercial-Grade Design: Engineered for commercial bakeries, food factories, and automatic production systems, meeting the demands of industrial baking processes.
 7. Customization: Tsingbuy [burger bun tray factory in China](#) offers tailor-made solutions through its ODM & OEM services, providing high-quality customized pans to meet specific production requirements.
- This 20-mold hamburger pan is a reliable choice for industrial baking, offering efficiency, precision, and durability in every bake.
