

# Custom Made Heavy Duty Durable Aluminized Steel Strap Loaf Pan Toast Bread Baking Tin Molds for Commercial and Industrial Use

## **Main features of custom made aluminized steel strap loaf pan toast bread baking tins**

1. Crafted from 0.8/1.0/1.2/1.5 heavy gauge aluminized steel with double strengthening bars over the whole pan.
2. Capable of baking 3/4/5/6/8 loaves quickly while still maintaining the quality of loaf bread baking.
3. Available in a range of sizes, in configurations to suit all industrial/commercial ovens.
4. Coated with PTFE/Silicone glaze to ensure good loaf bread appearance, not sticking to the pan. The non stick coating is suitable for contact with food and has longer-lasting performance. It also reduces the oil when baking and saves your cleaning time and labor.
4. Tsingbuy [aluminized steel loaf pan manufacturer](#) provides "design-sample confirmation-batch production" service with more than 15 years of ODM&OEM experience.
