

New Design Cutted Cornners PTFE Non Stick Coated Aluminium Bread Baking Tray Bakery Oven Baking Sheet Pan for Cake Cookies Biscuits Pastry etc

Main features of cutted-corners aluminium bread baking tray oven baking sheet pan

1. The new tray is made of aluminized steel, a material known for its durability and heat conductivity, making it ideal for commercial use in bakeries, restaurants, and food factories.
2. With a size of 400*600mm, this tray provides ample space for baking large quantities of food, making it perfect for commercial baking.
3. The tray features a non-stick coated surface, which prevents food from sticking, making it easier to clean and maintain.
4. The cutted corners add a special design element to the tray, making it stand out from other baking sheets on the market. The cutted corners make it easier to slide or lift the food item off the tray without having to use a spatula or tongs, which can be especially helpful when handling delicate items like fish or vegetables.
5. As a flat baking sheet pan, this tray is versatile and can be used for a wide range of baked goods, from cookies to bread and pastries, making it an essential tool for any commercial kitchen.
6. As a professional ODM/OEM [bread tray factory](#), we are committed to providing our customers with the highest quality products and services. We work closely with our clients to understand their unique needs and requirements, and use this knowledge to create bespoke baking trays that meet their specifications. With years of experience in the industry, we have the expertise to deliver outstanding results every time.
