

Handmade Welded Corners 1.5MM Thick Aluminum Rectangle Pizza Baking Tray Detroit Pizza Pan

Main features of aluminum detroit-style pizza pan rectangle pizza baking tray

High Quality 1.5mm Aluminum Construction

- Crafted from premium 1.5mm thick aluminum for superior, even heat distribution—essential for achieving the signature crispy, caramelized cheese edge and airy, focaccia-like crust of authentic Detroit-style pizza.

Authentic Rectangular Design & Sizing Flexibility

- Features the classic rectangle shape to create the traditional "edge-to-edge" rectangle pizza.
- Available in multiple standard sizes to suit various oven and serving needs.
- Custom sizing available upon request for unique operational requirements.

Expert Handcrafted Durability & Safety

- Meticulously handmade with reinforced welded corners for seamless durability and easy cleaning.
- Features a professionally curled edge for a secure, comfortable grip and added safety during handling.
- Built to withstand the rigors of high-temperature, high-volume professional kitchens.

Advanced Surface Technology Options

- Classic Anodized: Hardened, non-reactive surface for natural, easy food release and superior durability without coatings.
- Perforated Anodized: Anodized surface with precision perforations for enhanced airflow, promoting an extra-crispy bottom crust.
- Premium PTFE Non-Stick (Double-Side): Superior, durable non-stick coating on all surfaces for ultimate food release and effortless cleaning.

Direct Factory Supply & Professional Services

- Manufactured by Tsingbuy [aluminum pizza tray manufacturer in China](#), also a professional OEM/ODM specialist in premium bakeware and kitchenware.
- Benefit from direct factory pricing, stringent quality control, and reliable supply.
- Comprehensive OEM & ODM services available, including custom branding, packaging, and product development tailored to your brand's specifications.

Product images of aluminum detroit-style pizza pan rectangle pizza baking tray

Crafted from 1.5mm thickened aluminum alloy
Heat-resistant up to 380°C

A close-up photograph of a laser-welded seam on a metal surface. The weld is a bright, textured line that runs diagonally across the frame. The metal surface is a light gray color. A semi-transparent gray box with rounded corners is overlaid on the bottom left of the image, containing white text. A thin, curved white line is also visible, starting from the bottom left and curving upwards towards the weld.

Utilizes laser welding for seamless
robust seams

Features an anodized, smooth surface for effortless cleaning.

A curled-edge structure enhances strength, prevents deformation, ensures a secure, comfortable grip.

Company profile

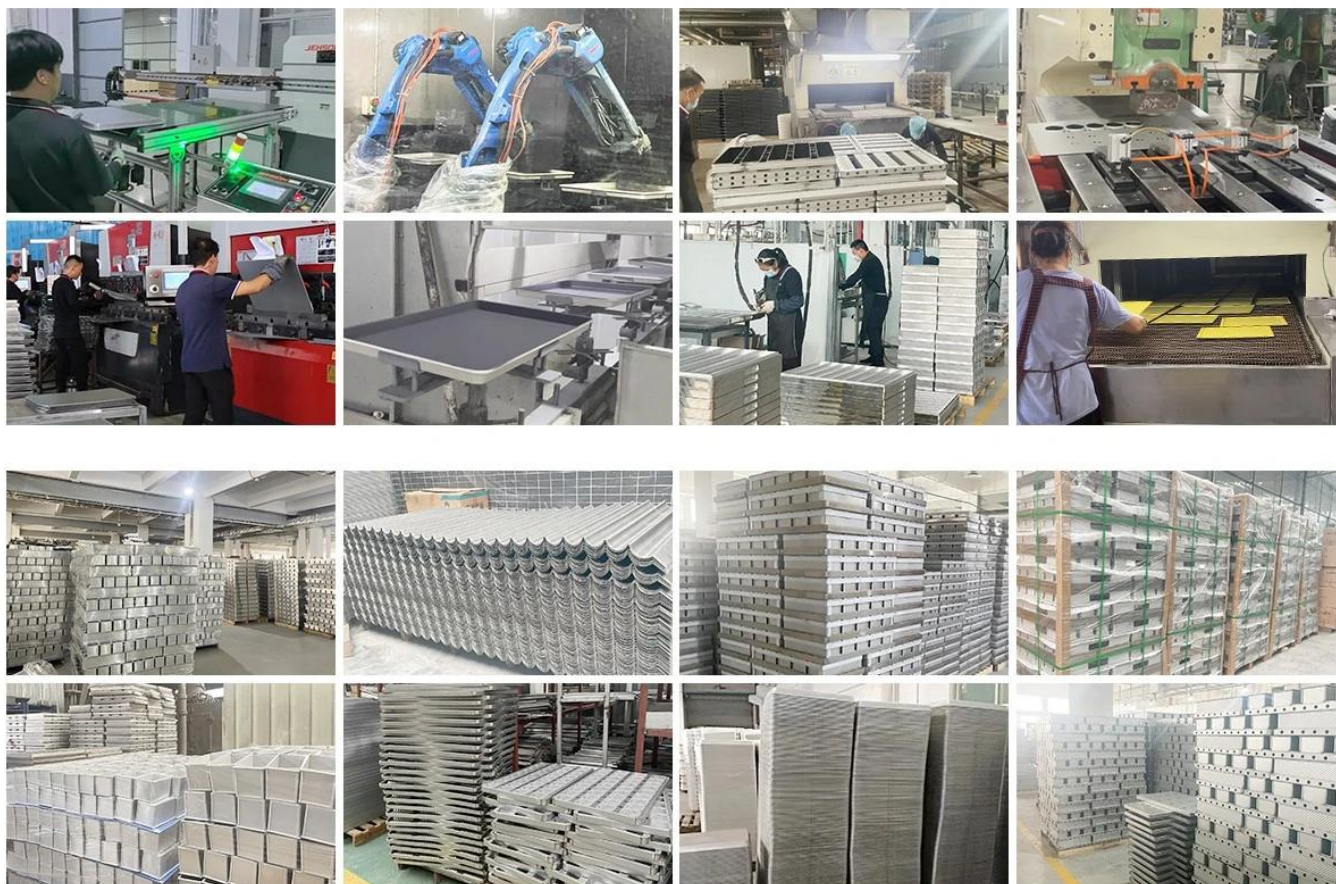

Founded in 2006, Tsingbuy Industry Co., Ltd. is a leading [commercial baking pan factory in China](#). With nearly two decades of industry expertise, Tsingbuy has established a solid reputation for producing commercial-grade baking pans, loaf pans, baguette trays, multi-mold industrial trays, cake molds, pizza pans, cooling racks, and bakery trolleys. All Tsingbuy bakeware products meet international food-contact safety standards, including SGS, LFGB certification.

Tsingbuy's production base is located in Guangzhou, covering 39.8 acres with more than 40,000 square meters of modern factory space and 500+ skilled employees. We operate a full suite of 200+ advanced production machines, including CNC machines, laser cutting machines, CNC bending machines, welding robots, and fully automated coating lines. Backed by robust R&D strength and advanced manufacturing capabilities, we specialize in delivering comprehensive, innovative, and efficient customized bakeware solutions tailored for global clients, like medium and large-scale food factories, commercial bakeries, automated production lines, bakeware brand enterprises, international trading companies, distributors and wholesalers etc.

Factory show

Production

Thanks to continuous support from customers around the world, Tsingbuy has grown into one of the most professional and reliable bakeware manufacturers. Our products are now exported to **over 150 countries**, where customers enjoy baking success, business growth, and long-lasting cooperation-just like the warm aroma of freshly baked bread.

Our Main Commercial Bakeware Series: Sheet pans / Baguette pans / Bread loaf pans (single pans and industrial strap loaf pans) / Multi-mold baking trays (cupcake, muffin, burger bun, donut, madeleine, etc.) / Cake pans baking molds / Pizza pans / Cooling racks / Bakery trolleys.

Why Choose Tsingbuy ?

<p>Complete Production Line </p> <p>Fully equipped with CNC machinery, laser cutting, bending, mold-making, welding robots, and automated spraying systems.</p>	<p>Strong Technical & Sales Teams </p> <p>Experienced engineers ensure product quality, while our sales team communicates efficiently and understands global customer requirements precisely.</p>		<p>Large-Scale Production Capacity </p> <p>40,000+ sqm factory, 500+ employees, and 200+ advanced machines enable efficient production and reliable supply capability.</p>	<p>Competitive Factory Prices </p> <p>As a direct manufacturer, we provide cost-effective pricing without compromising quality.</p>
<p>Nearly 20 Years of Expertise </p> <p>Professional ODM & OEM manufacturing since 2006, serving global commercial bakeries and food factories.</p>		<p>Exquisite Workmanship </p> <p>We implement strict quality control from raw materials to finished products, ensuring every bakeware item meets high commercial standards.</p>		<p>Fast Delivery </p> <p>Strong production capacity and optimized manufacturing processes enable prompt and on-time shipping.</p>

Custom Capabilities

Our strongest capability lies in **professional customization**—especially for medium to large commercial bakeries and industrial food manufacturers. The hot selling custom made baking pans includes strap loaf pans and multi-mold baking trays suited for muffins, cupcakes, burger buns, donuts, madeleines, and more. With nearly 20 years of manufacturing experience, our engineering and design teams excel at developing **tailor-made bakeware** that meets specific product requirements, automation needs, oven specifications, or production line standards.

We proudly offer end-to-end **ODM & OEM services** for bakeries, food factories, restaurant chains, wholesalers, distributors, and international trading companies.

Exhibition

As a premier name in the bakeware industry since 2006, Tsingbuy Industry Co., Ltd. consistently brings its **innovative and commercial-grade solutions** to the global stage through active participation in key international exhibitions. Our presence at these prominent trade shows is a strategic platform to showcase our extensive range of products, from commercial baking pans and baguette trays to customized industrial trays and automated bakery trolleys, all manufactured to meet stringent international food-contact safety standards. These exhibitions allow us to connect directly with global clients, from large-scale food factories to renowned bakeware brands, demonstrating the strength of our integrated operation—from a 39.8-acre modern facility in Guangzhou equipped with over 200 advanced machines, to our dedicated R&D and full automated coating lines. By exhibiting internationally, Tsingbuy not only highlights its nearly two decades of manufacturing

expertise but also reinforces its commitment to delivering comprehensive, efficient, and **tailor-made bakeware solutions** to partners worldwide.

Packaging and shipping

Tsingbuy's state-of-the-art facility ensures the seamless transition of our premium bakeware from production to your doorstep. Our expansive workshops, equipped with advanced automation lines, enable high-volume, precise manufacturing of thousands of commercial pans and trays. In the packing halls, specialized teams and systems meticulously sort, inspect, and package each product with protective care, preparing robust pallets for secure global transit. This integrated mass production, packing, and shipping operation guarantees reliable, large-scale delivery of our high-quality bakeware to food manufacturers and bakeries across the globe.

Main product series

Besides [wholesale detroit pizza pan in China](#), Tsingbuy's core product range is organized into comprehensive series designed to meet the diverse demands of commercial baking and food production. Our offerings are grouped into several key categories, each encompassing a variety of specialized models and sizes. This includes a full selection of pans for breads, loaves, and baguettes; industrial-strength trays and molds for cakes, pizzas, and large-scale output; alongside essential supporting equipment like cooling racks and mobile bakery trolleys. Each series is developed with innovation and durability for high performance in commercial & industrial baking environments, as well as being available to seamless

matched with auto-machinery production lines.
