Features:

Ø Commercial bakery use pan

Ø Superiorheat conduction, aluminized steel construction

Ø Easyrelease, non-stick coating for ease in baking and cleanup

Ø Suitablefor food-factory production

Ø Matchwith automatic bread baking oven with drawing required

Ø Customizedsize for unique usage

Ø Ready-made mold for choosing

Ø Aluminized steel is the material of choice for bakeware used by professional bakers andcommercial bakeries for its durability and high-performance capabilities

Instructions of coating daily using

- 1. Cleaning with soft cloth and drying the tray before your using.
- 2. Using soft cloth or plastic scraper to clean the residues ofthe inner trays after finish baking.
- 3. Better to add some Neutral Detergent into temperature water toclean the residues entirely with soft cloth after using several times.
- 4. Brush some oil to improve the efficiency of coating whilebaking high sugar products (recommend butter, baking tray’s oil or lard oil.Don’t use salad oil)
