

Main Features of Madeleine Cake Pan

1. Commercial bakery using pan directly from [baking tray factory in China](#)
2. Superior heat conduction, aluminized steel construction
3. Easy release, non-stick coating for ease in baking and cleanup
4. Dozens of cups OEM industry cup tray, suitable for food-factory production
5. Match with automatic bread baking oven with drawing required
6. Customized size in length, width, inner cups for unique usage
7. Generally standard sizes for Ready-made molds, suitable for most requirements
8. Aluminized steel is food-safety material with certificate by professional bakers and commercial bakeries for its durability and high-performance capabilities

Instructions of Coating Daily Using from Baking Tray Manufacturer

1. Cleaning with soft cloth and drying the tray before your using.
2. Using soft cloth or plastic scraper to clean the residues of the inner trays after finish baking.
3. Better to add some Neutral Detergent into temperature water to clean the residues entirely with soft cloth after using several times.
4. Brush some oil to improve the efficiency of coating while baking high sugar products (recommend butter, baking tray's oil or lard oil. Don't use salad oil)

Descriptions of Non-stick Shell Shape Madeliene Cake Pan

Multi-moulds Pan Produced by Customized Baking Tray Supplier in China
