

Machine Stamped Non-stick alusteel baking sheet pan

Main features of non-stick alusteel baking sheet pan

1. High quality alusteel for superior heat conductivity and flat bottom keeping during heating
2. Reasonable thickness for best heat distribution
3. Reinforced encapsulated iron steel rim keeps pans straight and prevents warping during baking
4. Rustiness and corrosion resistant, durable and strong, quality assurance, long service life
5. Machine stamped, round corner, exquisite workmanship and exterior
6. Non-stick surface, easy to clean up and saves the cost of baking mat like parchment paper, and oils/ fats
7. Technically designed sizes available to fit in most ovens. The small size of 400*600mm offers greater flexibility, while bigger sizes maximize oven capacity and baking efficiency.
8. Three sizes of different thickness for your selection as below, and customized size is available

TSPP006	400*600*50mm	0.5mm thick	Alusteel	Natural/no coating Teflon coating Silicone coating
TSPP007		0.6mm thick		
TSPP008		0.7mm thick		
TSPP009		0.8mm thick		

Instructions of coating daily using

Here, Tsinguy [sheet pan factory in China](#) gives you some instructions of coating daily using, which will make the alusteel baking sheet pan more durable and get a longer service life.

1. Cleaning with soft cloth and drying the tray before your using.
2. Using soft cloth or plastic scraper to clean the residues of the inner trays after finish baking.
3. Better to add some Neutral Detergent into temperature water to clean the residues entirely with soft cloth after using several times.
4. Brush some oil to improve the efficiency of coating while baking high sugar products (recommend butter, baking tray's oil or lard oil. Don't use salad oil)
