

Custom Made Commercial Bakery Oven Tray Nonstick Aluminum Metal Cookie Baking Sheet Perforated Tray

Main features of nonstick aluminum metal cookie baking sheet perforated tray

Aluminum Alloy Metal: Made of high quality 1.0mm aluminum alloy material, this perforated baking tray is sturdy with commercial construction. It conducts heat well and can withstand baking temperatures up to 300°C. It is resistant to warping, rusting, and deformation. The pan can withstand extreme cold or heat, and it will remain flat.

Cutted-corners Design and Perforation: Perforation design allows for better air circulation, resulting in a crisper crust without burning. The cutted corners make it easy to bake, serve, and clean.

Non Stick Surface: With a premium TFL non-stick surface, cleaning this baking sheet is a breeze. Simply wipe it gently with a rag , and it will stay bright. Its non-stick surface ensures easy baking and cleaning every time.

Multiple Functions: ideal for pastries, cookies, petit fours, bread, tart bases, biscuits and more. It is suitable for use in home kitchen, businesses kitchen, and a variety of occasions, including family gatherings, holiday parties, restaurants, and outdoor barbecues. It also makes a great gift for chefs.

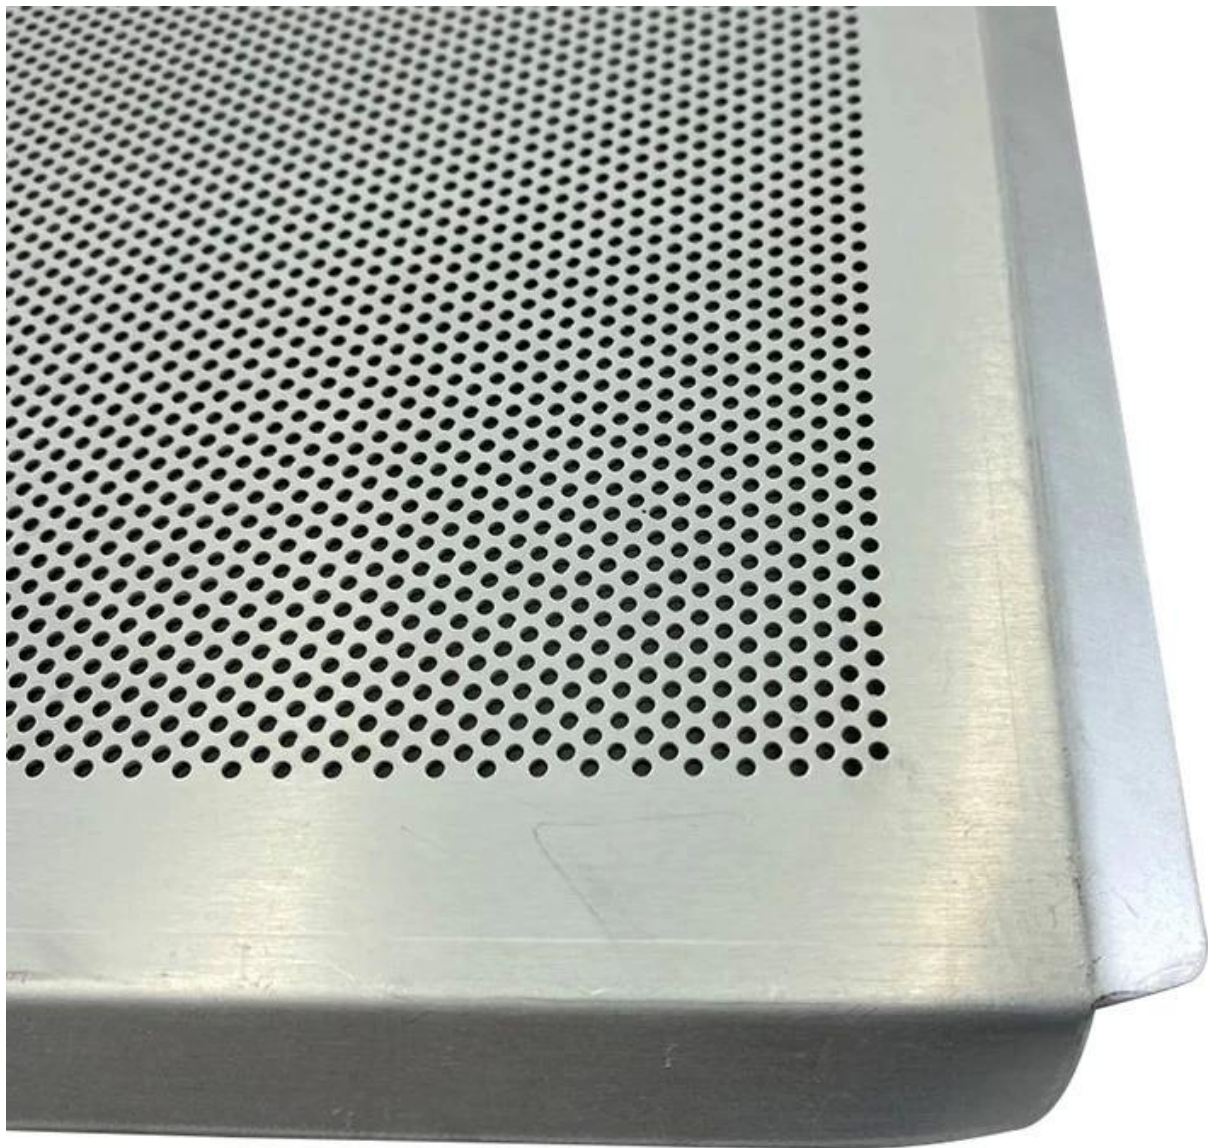

Professional ODM&OEM service: Tsingbuy [perforated tray manufacturer](#) has been provides professional ODM&OEM service of commercial baking pans for over 15 years, including baking sheet pan, bageutte pan, loaf pan, multi-mold muffin cupcake baking pan.
