

400*600mm Perforated Aluminum Tray Baking Sheet Pan Cooling Tray with Large Holes

Product description of perforated aluminum tray cooling tray with large holes

This high-quality 1.5mm thick aluminum tray is designed for durability and efficiency. Manufactured with precision, this tray features a seamless construction, ensuring robustness and longevity. The tray is perforated with long oval holes, optimizing airflow and heat distribution for various industrial and commercial applications.

Material: Premium 1.5mm thick aluminum

Construction: Drawn seamless design for enhanced strength and durability

Perforation: Long oval holes for improved ventilation and even heat distribution

Dimensions: 400x600mm

Functionality:

Baking: This tray is perfect for baking a variety of products. The aluminum construction provides excellent heat conduction, ensuring even baking across the entire surface. The perforated design allows for optimal airflow, resulting in perfectly baked goods with crispy edges and a uniform texture.

Cooling: After baking, this tray serves as an efficient cooling surface. The perforations facilitate rapid cooling by allowing air to circulate freely around the baked items, preventing condensation and maintaining the quality and freshness of the products.

Displaying: With its sleek design and sturdy construction, this aluminum tray is ideal for displaying baked goods in a professional and attractive manner. The perforations add a unique aesthetic while also ensuring the items remain fresh during display.

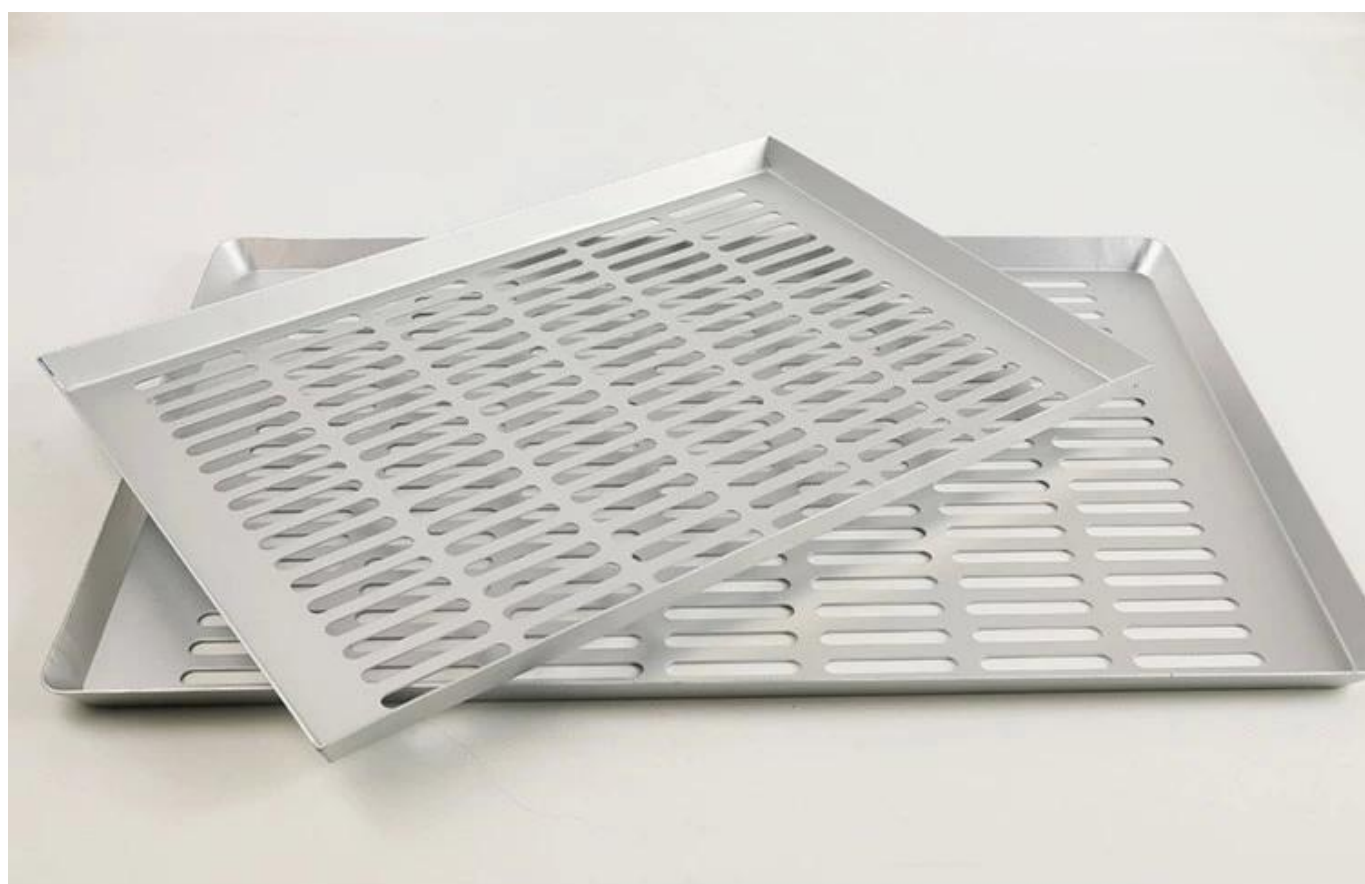

Ideal for use in food processing, baking, and industrial applications, this aluminum tray combines practicality with superior performance. Order now and experience the difference in quality and reliability.

Factory ODM&OEM service:

Tsingbuy [China aluminum tray manufacturer](#) offers comprehensive ODM and OEM services for baking trays, delivering customized solutions to meet diverse client needs. With advanced manufacturing capabilities, we ensure high-quality, tailor-made designs, seamless integration of specifications, and rapid prototyping. Partner with us for innovative, durable baking trays that elevate your brand's performance and reliability.
