How to use China Banneton proofing Basket

When you get a new banneton it needs a little conditioning to get it to the best condition. Flour a thin layer both on the bread basket bottom and along inside the basket. Put the dough into the rattan banneton proofing basket, which is completely fermented to fit the basket. It is better to use a thin-floured cover on the top of the dough, so that to protect the exposed dough from drying out.

Banneton basket factory come up with fitable customized packin. And hangtag is very helpful in creating brand impression.
