

# Red Coated Non Stick Perforated Aluminum Baking Tray, Bakery Oven Baking Sheet Pan

This red coated perforated aluminum baking tray from Tsingbuy, a leading [aluminum baking tray manufacturer in China](#), is built for efficiency, durability, and professional baking performance. Made from premium aluminum with options of 1.0mm, 1.2mm, or 1.5mm thickness, it offers excellent heat conduction and structural strength. The red non-stick coating provides smooth release and easy cleaning, while the perforated design ensures perfect air circulation for even baking results. Designed as a shallow pan with cut corners, it's ideal for commercial bakeries, food factories, and automatic production systems.

## Features

High-Quality Aluminum Material: Available in 1.0mm, 1.2mm, and 1.5mm thickness, ensuring fast, uniform heat transfer and long-lasting durability.

Red Non-Stick Coating: Stylish and practical—offering excellent release performance and effortless cleanup.

Perforated Multi-Functional Design: Enhances airflow and baking efficiency, suitable for breads, pastries, and other baked goods.

Shallow Pan with Cut Corners: Space-saving and easy to handle, designed for smooth operation in commercial bakery environments.

Professional ODM & OEM Service: As a bakeware manufacturer since 2006, Tsingbuy provides comprehensive customization solutions to fit bakery equipment and machinery production systems.
