

Aluminum Round Cake Pans with fixed bottom

Main features of aluminum round cake pans

Thickened aluminum alloy

It is made of aluminum alloy, integrated molding, high heat transfer efficiency, saving baking time, excellent baking effect, high strength, high rigidity, strong and durable

Thickened edge material

The bottom edge is thickened with special design, which is easy to make. Some cheap cake molds on the market uses too thin material, the edge is not well treated, and it is sharp on edge, so it is easy to scratch your hands

Appearance fashion

Fashionable appearance design, smooth surface, delicate hand feel, easy demoulding, not easy to hide dirt, convenient and effortless for cleanup

Thick and beautiful

Tsingbuy [round cake pan manufacturer](#) applies durable material, hard and durable, resistant to high temperature, not easy to deform

Product images of aluminum round cake pans with fixed bottom

Round Cake Pan (Anodized)

Model	Size	Thickness
