

Aluminum sheet cake pan with sliding lid

Main features of aluminum / aluminized steel sheet cake pan with sliding lid

- made of high-qualified aluminum/ aluminized steel material, durable and excellent in heat conductivity, better baking performance.
- nonstick surface treatment, easier for demoulding and cleanup
- wire in rim for extra support, no deformation under high-temperature baking, longer service life.
- custom lid make it easier to bake bread/cake with flat top. Perforated surface is also available.
- multiple sizes for choices. Custom manufacturing is our biggest strength as a leading [baking sheet manufacturer](#) in China.
