Baking Pan Maintenance

1. Before using the mould for the first time, first smear the baking tray with the wilderness and bake for 10 minutes, which is conducive to enhancing the non stick performance of the baking tray and forming the service life of the baking tray;
2. Before use, it is limited to clean the mold with clear water, and then use it after wiping with soft cloth;
3. After use, tens of residues inside the mold can be cleaned with soft cloth;
4. Do not use metal tools to clean the mold to avoid damaging the coating.
