

Non-stick Perforated Flat Baking Sheet

Main features of aluminum non-stick perforated flat baking sheet

High-qualified aluminum sheet, good heat conduction.

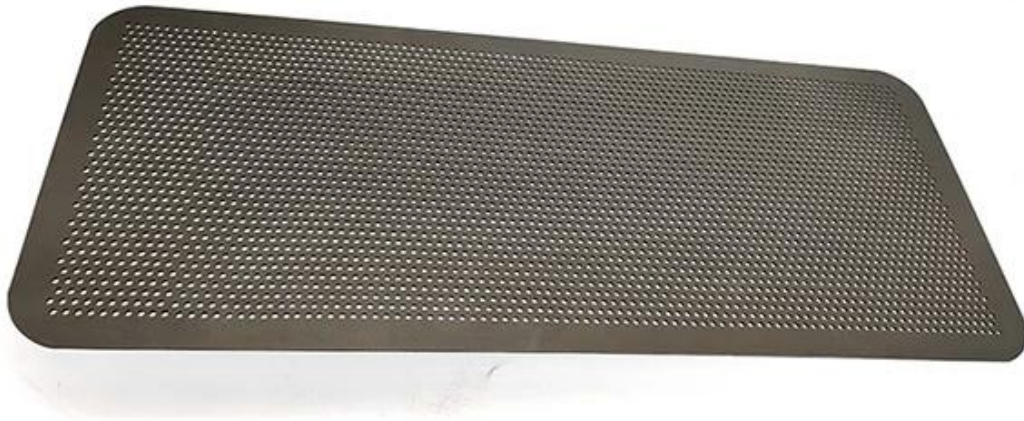

Even perforation allows superior air flow.

3.0mm thickness controls the baking state just perfect for thin cookies, biscuits, crisps and chips etc.

No borders around make it quick and easy to slide the baked biscuits/cookies out off the flat baking sheet.

It is designed specially for thin cookies/biscuits by Tsingbuy, which is an experienced [flat baking sheet manufacturer](#) with professional team, excellent service, high-qualified factory production and in-time shipping.
