

# Machine Stamp 1.5mm Thick Aluminum Perforated Sheet Pan Baking Tray with Straight Edge

## Main features of

### machine stamp aluminum perforated sheet pan baking tray with straight edge

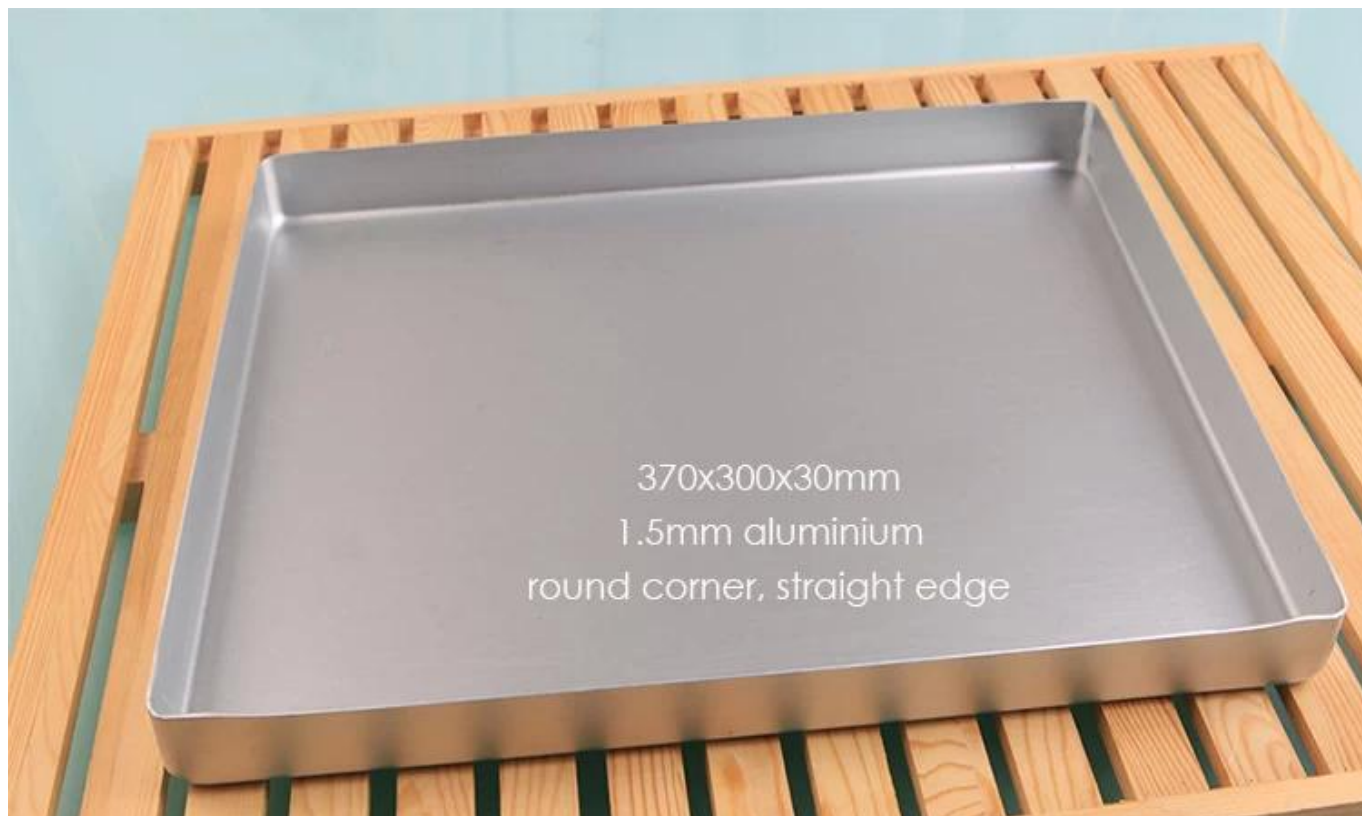

1. made of high-qualified 1.5mm thickened aluminum alloy, which will never rust for long service life and makes bread/cake bake and brown evenly due to its superior heat conductivity.
2. designed with straight edge and round corner, for large holding capacity and easier cleaning. The 1.5mm thickness supports enough strength preventing warping during high-temperature baking.
3. It is produced for multiple function, making brownies, baking large sheet cakes, cooking sheet pan dinners etc.
4. Perforated surface for better air flow and higher baking efficiency. Non-stick surface is also optional.
5. It is recommended to be washed by hand.
6. Tsingbuy [perforated sheet pan manufacturer](#) provide professional baking tray design and manufacturing service.
