

Bulk Industrial Non Stick Aluminized Steel Mini Square Cupcake Muffin Baking Tray Pan for Bakery Restaurant Food Factory etc

Product Description: This is a high-quality, industrial-grade non-stick aluminized steel baking tray. It is designed for use in bakeries, restaurants, and food factories for baking mini square cupcakes and muffins. The tray is made of durable aluminized steel, which provides excellent heat conductivity and ensures even baking. The non-stick coating prevents the baked goods from sticking to the tray, making them easy to remove and clean. The tray is available in bulk quantities, making it a cost-effective solution for commercial bakeries and food service establishments.

Key Features:

- Material: High-quality aluminized steel with a non-stick coating.
- Size: Mini square design, suitable for cupcakes and muffins.
- Quantity: Available in bulk quantities for industrial use.
- Applications: Ideal for bakeries, restaurants, and food factories.

Specifications:

- Material: Aluminized steel.
- Surface: Non-stick coating.
- Dimensions: Mini square (exact dimensions to be provided).
- Weight: (exact weight to be provided).

Usage Instructions:

1. Preheat the oven to the recommended temperature.

2. Lightly grease the tray (if necessary).

3. Fill the tray with the batter.

4. Bake for 15 minutes.

5. Remove the tray from the oven and allow the baked goods to cool.

6. Clean the tray after use.

Notes:

- 48 pieces per tray.
- Lead time: 15 days.
- ODM&OEM services available.
