

Pyramid Silicone Mat

Pyramid Silicone Mat

1. **Non-stick:**

Pyramid Silicone Mat is designed with a non-stick surface, making it ideal for use in laboratories, hospitals, and other settings where hygiene and easy cleaning are essential. The mat's unique pyramid-shaped design helps prevent liquids and solids from adhering to the surface, ensuring a clean and safe workspace.

2. **Raised Pyramid Design:** Pyramid

The raised pyramid design of the mat provides a textured surface that is both durable and easy to clean. The pyramids are spaced evenly across the mat, creating a consistent pattern that helps to prevent slipping and provides a non-slip surface. This design also allows for easy drainage of liquids, making the mat suitable for use in wet areas.

3. **Antibacterial & Antifungal:** Pyramid Silicone Mat / Pyramid

The Pyramid Silicone Mat is made from high-quality silicone, which is naturally antibacterial and antifungal. This makes the mat an excellent choice for use in laboratories, hospitals, and other settings where hygiene is critical. The mat's non-stick surface also helps to prevent the growth of bacteria and fungi, ensuring a clean and safe workspace.

4. **Easy to Clean:** Pyramid Silicone Mat / Pyramid

The Pyramid Silicone Mat is designed for easy cleaning and maintenance. The non-stick surface allows for quick removal of spills and debris, and the mat can be washed with soap and water. The raised pyramid design also helps to prevent dirt and grime from accumulating on the surface, making the mat a low-maintenance option for busy environments.

5. **Temperature Range:** Pyramid Silicone Mat / Pyramid; -4 °F (-20 °C) to +428 °F (+220 °C);
